The screenshot shows the Salesforce Setup interface. The top navigation bar includes the Setup icon, a search bar labeled 'Search Setup', and utility icons. The left sidebar shows the 'Setup' menu with 'Home' and 'Object Manager' options. Under 'Object Manager', the 'Tabs' section is selected, showing a search bar and a list of tabs. The main content area displays the 'Custom Object Tab' for 'consumers'. Below this, a message states: 'Below is the information for the custom tab. Click Edit to change the custom tab.' The 'Custom Tab Definition Detail' table shows the following information:

Milestone 4- The Lightning App:

An app is a collection of items that work together to serve a particular function. In Lightning Experience, Lightning apps give your users access to sets of objects, tabs, and other items all in one convenient bundle in the navigation bar. Lightning apps let you brand your apps with a custom color and logo. You can even include a utility bar and Lightning page tabs in your Lightning app. Members of your org can work more efficiently by easily switching between apps.

Permission sets A permission set is a collection of settings and permissions that give users access to various tools and functions. Permission sets extend users' functional access without changing their profiles and are the recommended way to manage your users' permissions.

Sharing Permission Settings

Milestone 11 :

Reports Reports give you access to your Salesforce data. You can examine your Salesforce data in almost infinite combinations, display it in easy-to-understand formats, and share the resulting insights with others. Before building, reading, and sharing reports, review these reporting basics. In Salesforce.com we can easily generate reports in different styles. And can create reports in a very short time and also schedule the reports. Salesforce provides a powerful suit of analytic tools to help you organize, view and analyze your data.

Milestone 12 :

Dashboards Dashboards help you visually understand changing business conditions so you can make decisions based on the real-time data you've gathered with reports. Use dashboards to help users identify trends, sort out quantities, and measure the impact of their activities. Before building, reading, and sharing dashboards, review these dashboard basics. Below are dashboard details with estimated data graph:
